A true New Yorker bar in a building owned by the descendants of American founding father John Jay; the Financial District (fidi) has welcomed Broadstone with open arms.

Encompassing three floors, great for private and semi-private events, Broadstone offers appealing decor, incredible food and a wide range of cocktails and beers

THE JOHN JAY ROOM

65/75 ppl

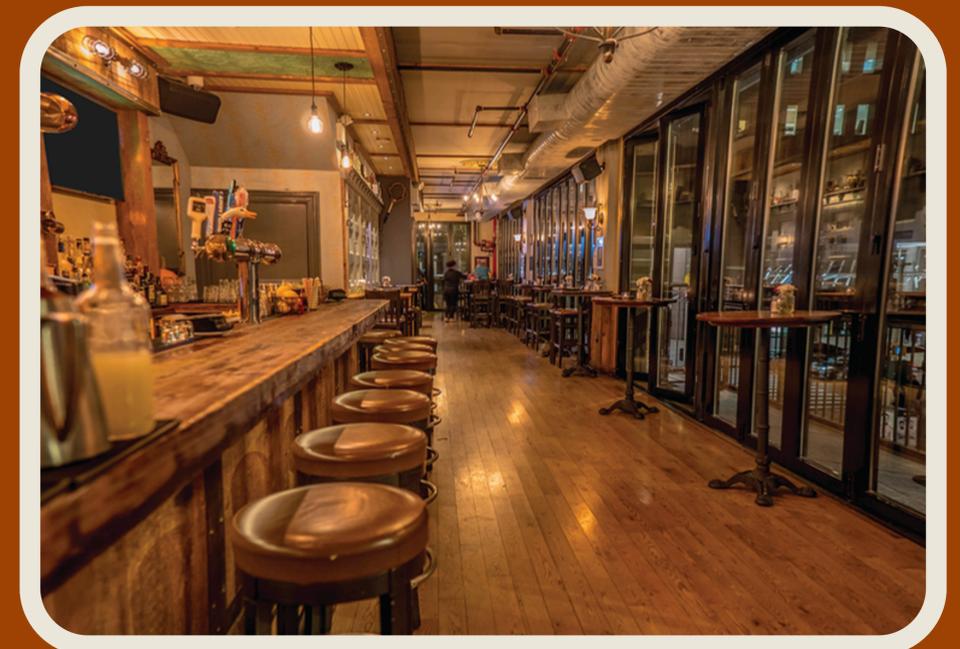

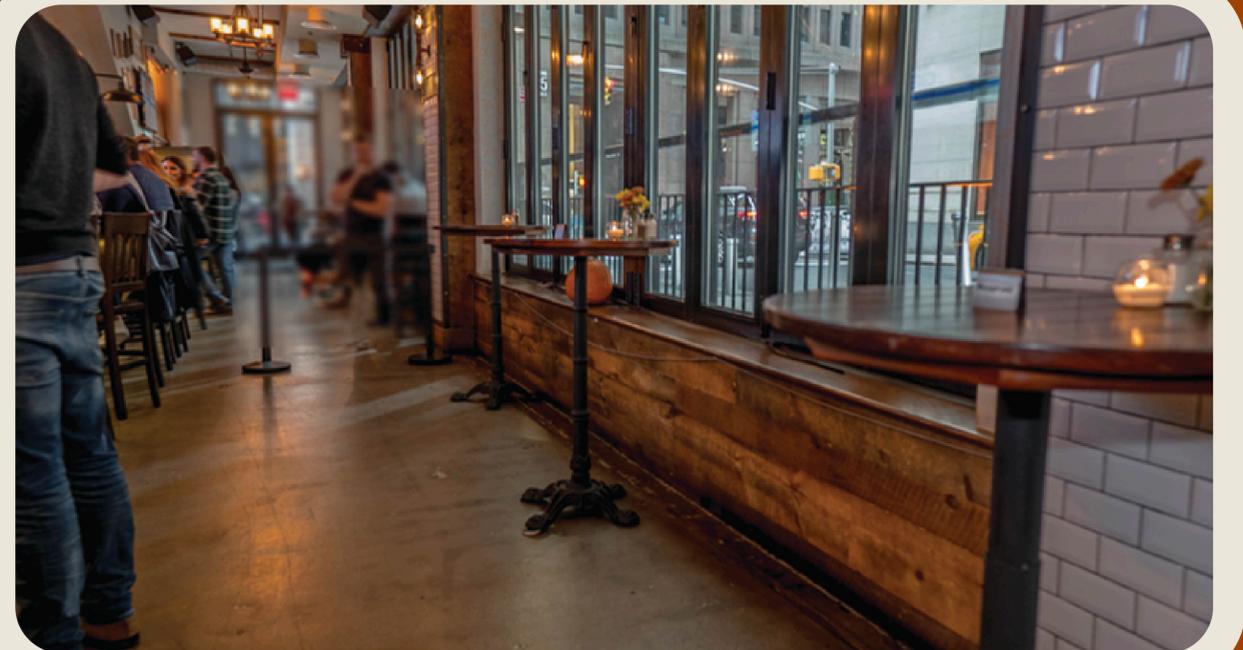

The John Jay Room is our 3rd floor private bar, which boasts 4 wrap-around balconies and views of the East River. The room is perfectly designed for cocktail reception style events, & in the warmer weather all the balconies open up, allowing guests to enjoy a nice breeze, sip on a cocktail, & take in the sights of the Financial District. Along with a seasonally-themed menu, the private floor also has a wireless mic for any speeches, two 70 inch TVs with full A/V capabilities, and an independent sound system which allows guests to control the music

SECOND FLOOR

100 / 125 ppl

Broadstone's Second Floor is a beautifully decorated room rich in Victorian style design and rustic wood. The floor itself can host private and semi private party's depending on your needs. Similar to the John Jay Room, the balconies can be opened during the warmer month which increases capacity of the space.

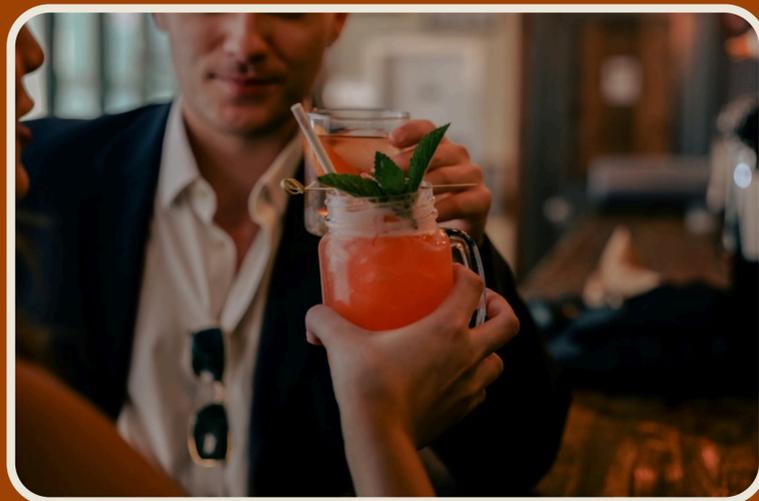

FIRST FLOOR

100 / 125 ppl

The First Floor bar can hold up to 125 people for cocktail reception style events, however smaller semi private options are available on the ground floor as well
